

when I honestly know it's true, it's something that makes me better as a person and hopefully a better leader. Lastly, I lead mostly by example and I think I have an idea of what has changed and what we can do to make this school fun and more efficient within the three years of attending BC.

Why do you want to be a grade level President or a member of the grade level Cabinet?

I want to be the president of my grade or a member of the grade level cabinet because even if I don't make it as president or vice president I still know that I will continue to set my sights high. I will definitely still be able to contribute as a member of the cabinet too. I want to be a part of our student council so that I and everyone else on the council can make differences, big and small. Also, I can't stress it enough about wanting to change people's opinions of who they think we are, when in all honesty they don't know us from a can of paint. Whether we increase new information or decrease the negative reputation we may hold in peoples mind; I want our staff and us as peers to be able to identify each other not by the outfits we wear or the "social" club we tend to stand by, but by our characters and us just being comfortable with being us. After all it will always start with us doing something to get the positive results that we want to strive to uphold as a school. These are just some of the things I know I want to work with or even completely change.
