

Brooklyn Center High School
Centaur Council

Candidate Name: *Peter Lee*

Grade: *8*

Extracurricular activities, interests, skills:

Last year I joined football for a week. In last spring I was in boys tennis for the whole season. my hobby is raising Pigeons. Some skills I have is that I can eat alot. I like cooking and I like going hunting and especially fishing.

What makes you a great leader and representative for your grade level?

I know what's right and what's ~~wrong~~ wrong. I know what's worth it and what's not. I also think I can be great leader because I think I can change something and students and teachers will both like it.

Why do you want to be a grade level President or a member of the grade level Cabinet?

I think I could make a change in this grade level. Every year teachers have meetings in how to or what to do so students have less tardies but still have a great time in school. I know I can change this school. I may not ~~smart~~ be smart on education but I know I am smart on having ideas. I want this school a better place. I want students to be happy here and teachers. I want students to respect teachers and teachers respect students. I want to make ~~BCH~~ BCMS a better place for students and teachers.
